

Polyimide Adhesive Tape

Polyimide Tape with Silicone Adhesive

Property

This kind of tape is made of polyimide material with heat-resistant silicone adhesive, which shows excellent dielectric insulation properties, high heat resistant, excellent solvent resistant, mask-off gold finger contacts during wave soldering, short-term temp. 250c x 5sec, and is widely used for electrical insulation on motor, transformer, coils, PCB making and so on.

Main Specification

Tape Color	Amber	Peeling	> 6.2
Overall	0.06mm	(2mil) Tensile	> 115
Backing	0.025mm	Elongation	> 55 %
Standard	33m (36yds)	Breakdown	> 7 KV
Insulation	C (200c)	Resistivity	>1.0x10 ¹²

Polyimide Pressure-sensitive Adhesive Tape with Acrylic Resin

Property

This kind of tape is made of polyimide material with acrylic adhesive, which shows excellent dielectric insulation properties, high heat resistant and is widely used for electrical insulation on motor, transformer, coils and so on.

Main Specification

Tape Color	Amber	Peeling	> 6.8 N/25mm
Overall	0.06mm	(2mil) Tensile	> 115 N/25mm
Backing	0.025mm	Elongation	> 55 %
Standard	33m (36yds)	Breakdown	> 7 KV
Insulation	F (155c)	Resistivity	>1.0x10 ¹²

Note:

- Shelf life: one year
- Packing: Carton
- Min Qty: 1000 m² each size in a lot.
